

Scamming is rife! How can you spot a scammer?

1. They use an email address other than the email address on this website (we don't use Gmail)
2. They WhatsApp you from a number that is not the cell number on this website.
3. They offer you the entire property on a self-catering basis (we will never ever allow this!)
4. They offer you multiple rooms for very cheap (we are not cheap!)
5. They don't charge per person (we do! And we aren't cheap!)
6. They say you can have functions/parties/visitors at the property (we will never ever allow this!) (I can't stress this enough!)
7. They have fake Facebook & Instagram profiles and they advertise on Self-Catering Facebook pages (we don't allow self-catering!)
8. They ask for a low deposit (we require a minimum of a 50% deposit and if you check out our rates on our website, we aren't cheap!)
9. They block you soon after you pay the deposit (we are a professionally run business and don't block people who pay deposits!)
